RE: Ex Parte Notice: CG Docket Nos. 10-51 and 03-123

Dear Ms. Dortch:

Sean Belanger and the undersigned of CSDVRS, LLC (“ZVRS”) met on April 19, 2012 with Sean Lev, Deputy General Counsel and Special Advisor to the Chairman, regarding the Commission’s pending VRS Further Notice of Proposed Rulemaking (“FNPRM”). ZVRS discussed its hybrid proposal which would compensate providers per user for providing customers the technology to access VRS and per minute for the interpretation of VRS calls. The hybrid proposal would preserve VRS users’ choice of providers, allow them to receive products or to use the interpreting services of more than one provider and retain their ability to dial around to another provider at any time. The separation of costs under the hybrid proposal of the technology to access VRS and providing interpreting services would enable the Commission to more closely tailor the funding of each cost category, resulting in the enhanced administration of TRS Fund expenditures. In addition, the separation of VRS access technology and interpreting services would make the market more contestable and rebalance the effects of the anti-competitive use of videophones by the monopoly provider.

We prepared for Mr. Lev’s convenience a summary of the ZVRS hybrid proposal, which is attached.

Sincerely,

/s/

Jeff Rosen
General Counsel
